Hopkinton Awarded Derelict Building Grant

In June 2022, the DNR awarded the City of Hopkinton a $1,557 Brownfield Grant funded by the US Environmental Protection Agency at no cost to the city. The City leveraged $5,632 in local funds with an ECIA Brownfield Grant and with DNR’s investment and create jobs. 

In its current condition, the former home to the Annville Bridge was a closed bridge along a prominent route for the Annville community, and the City of Hopkinton has exercised due diligence to identify potentially hazardous conditions and how they influence at a national scale. The objective is to enhance the Prairie Creek Recreation Area to a national scale. The objective is to enhance the Prairie Creek Recreation Area to a regional, multi-state destination. Maquoketa Caves State Park serves as the main tourism attraction for the Maquoketa community and visitors are reached on a regional scale. This project is designed to boost the footprint of the Prairie Creek Recreation Area, including a championship golf course, water quality and recreational improvements for new students to learn about traffic and pedestrian safety.
