Media Release: March 11, 2022

Public Meeting: Stanwood Brownfield Cleanup Project

The City of Stanwood will hold a public meeting on Monday, March 21, 2022 at the Stanwood Park Shelter at 5:30 pm located at 105 N Maple St, Stanwood, to discuss the draft Analysis of Brownfields Cleanup Alternatives (ABCA), Cleanup Plan, & Site Revisioning Plan for 211 & 213 Broadway St and hear public comments. The draft ABCA presents a summary of known environmental conditions on the site, an evaluation of cleanup alternatives, and proposed cleanup plan. The ABCA is available for a 30-day public review and comment period and is available for review online at the Stanwood Public Library, located at 202 E Broadway St, Stanwood, during normal business hours of Monday: 2-5pm; Tuesday: 2-7PM; Wednesday: 1-6PM; Thursday: 4-6PM; Friday:9AM-4PM;and Saturday: 10AM-2PM and on the town's webpage at <https://cityofstanwood.net/>.

Comments on the draft ABCA may be made at the public meeting or submitted in writing to stanwood@netins.net. The ABCA will be revised, as necessary, and

incorporated into the Site Cleanup Plan for review by the community, project partners, regulatory oversight agencies and the United States Environmental Protection Agency (USEPA). The public is encouraged to attend the meeting to learn more about the project and cleanup alternatives being considered.

The City of Stanwood received a grant of up to \$100,000 and a line of credit of \$50,000 from East Central Intergovernmental Association (ECIA) for the cleanup of the Brownfield site, which is adjacent to the City's current municipal building. The City will also be applying to the IA DNR Brownfields program for additional funds. The City plans to clean-up the site to make ready for reuse. Given its location next to the current municipal building the site is ideal for expansion of the city's municipal services buildings. The current municipal building located at 209 E Broadway St is shared with the fire department, EMS and city hall offices. The Site Revisioning Plan summarizes community outreach efforts and outlines several building expansion options to support the community's needs. ECIA along with YTT Design will present the plans and ABCA at the public meeting. This Brownfield Cleanup Project was funded in part through a Brownfields Assessment Grant and a RLF grant that ECIA received from USEPA.
